

# AT THE GATES OF PEKIN GOAL OF ALLIED ARMY

## The Advance Guard of the Foreign Forces is Reported to Have Reached the Eastern Entrance to the Imperial City.

# BIG BATTLE IS REPORTED IN PROGRESS

## It is Thought That China Will Surrender to the Demands of the Powers—It is the Intention to Punish the Rebel Leaders.

Shanghai, Aug. 14.—[Special Cablegram]—A great battle is said to be in progress east of Pekin where one hundred thousand armed boxers met the allied army as it approached the imperial city.

London, Aug. 14.—[Special Cablegram]—A special to the Express from Tien Tsin says that the advance guard of the allied army has reached the Eastern gate of Pekin and is awaiting the arrival of the main force. There is no large body of Chinese troops in sight.

Washington, Aug. 14.—[Special Telegram]—The news from Tien Tsin and London that the allied army is actually before Pekin is credited in official circles here.

It is known that the allies were at Tung Chon at noon on Sunday. That point is within twelve miles of Pekin. These last twelve miles, experts in the war department say, are the most easily traveled of all the distance lying between Tien Tsin and the objective point of the allied forces.

That the march should have been completed today is considered probable, in which case the allies now are encamped before the walls of the city of tragic mystery.

Think China Will Give Way. Officials here are encouraged to believe that at the last moment China will give in and announce a willingness to comply with the demands which are a condition precedent to peace negotiations.

It is thought the presence of the allied forces in the immediate vicinity of the imperial capital and their evident intention to storm the city, as indicated by the rapidity and determination of their advance, will help the Chinese officials to reach a hasty decision.

Moves Without Opposition. New York, August 14.—[Special Telegram]—A World's special from Che Foo says the allied scouts are now at Mathon, twenty miles north of Ho Si Wu, where the allies were last reported. The advance column moved twelve miles on Saturday last without opposition. The Ninth American infantry has been replaced by Russians as a support to the Japanese.

Another Message From Congo. Washington, August 14.—[Special Telegram]—Secretary Shang of the Chinese legation at noon brought the state department another message from Congo forwarded from Tsi Nan, the capital of the province of Shantung, via

# COST OF WAR IN LIVES AND TREASURE

## Total Number of American Soldiers Who Lost Their Lives in Filipino Conflict is 2,394.

Washington, D. C., Aug. 14.—As nearly as figures can express it the cost to the United States of the war in the Philippines has been \$186,678,000 in cash and at least 2,399 lives of American soldiers. In brief the cost of the war in lives and treasure is as follows:

Soldiers killed in action.....	533
Deaths from wounds.....	193
Deaths from disease and other causes.....	1,668
Total number of deaths.....	2,394
Total number of wounded.....	2,073
Cost of war in cash.....	\$186,678,000

The war with Spain ended and that with the Philippines began February 1, 1898. This date can be used in calculating the expenditure in money, although it was not until February 4 that hostilities with Aguinaldo and his followers really began, and it was not until

which the army can obtain its drinking water. The march along the Pei-Ho river before that village was reached was all that has been depicted of it; no water but what the muddy and murky river furnished, excepting that which the commissariat and small boats brought along for the benefit of the army. This made the first half of the march from Tien Tsin a terrible and memorable experience. Even so, the allies pushed ahead rapidly against active opposition from the Chinese army.

Chinese are Whipped. Before Ho-Si-Wu was reached the heart had been taken out of the Oriental army that was opposing the allies. Therefore it is argued by the war department officials that all conditions favored a quick and expeditious advance toward Pekin after the army had encamped and rested at Ho-Si-Wu.

And there is now known to have been more incentive for a hurried march to Pekin after the route had been covered than there was supposed to have been before.

It is learned today that the ministers and Christians in Pekin have been in a most precarious situation since Aug. 6. No time to be lost.

Runners and couriers have brought news to General Chaffee that Minister Conger and his friends in Pekin have been experiencing the most trying conditions that have befallen them since the first days of their imprisonment.

## TO NOMINATE OR NOT TO NOMINATE

That is the Question That is Bothering the Anti-Imperialists.

## TICKET OF THEIR OWN

Do Not Want to Play Into the Hands of Any Other Political Party.

## MEETINGS AT INDIANAPOLIS

Indianapolis, August 14.—[Special Telegram]—Two anti-imperialistic meetings began here today, the national party composed of gold democrats who want a separate ticket, and the anti-imperialistic league. The latter will really do its business tomorrow. The nationalists met at two o'clock and were presided over by Louis Ehrich of Colorado Springs.

The congress of the anti-imperialistic league will be called to order tomorrow morning in Tomlinson hall by Senator Henderson of Missouri. Gov. George S. Boutwell of Massachusetts will be presiding officer.

Gov. Boutwell, who is opposed to placing a third ticket in the field, will use all his influence to that end, and likewise for the endorsement of Bryan and Stevenson. He believes strong resolutions denouncing imperialists should be adopted.

Bourke Cochrane is billed for an address. It is also affirmed that Carl

# WILHELM DER GROSSE SETS A SWIFT PACE

## First of the Four Great Ocean Racers is at Cherbourg With a New Record to Her Credit.

New York, Aug. 14.—The splendid German Lloyd liner Kaiser Wilhelm der Grosse has finished her race across the ocean and has once more established a new record for the trip between Sandy Hook and Cherbourg.

This splendid greyhound made the distance in 5 days, 19 hours and 44 minutes. She has made one other record trip eastward. This was in May, 1899, when she ran from Sandy Hook to Plymouth in 5 days, 15 hours and ten minutes. On that trip she made the fastest single day's run that had ever been piled

up, when she reeled out 580 knots at an average speed of 23.43 knots an hour.

Maritime men are astounded at the splendid showing made by the German liner. They had in view, however, her famous run to Plymouth, and her admirers said today that they knew she would equal, if not excel, that performance. She really bettered it when the difference in distance is compared, Plymouth being 2,962 knots, and Cherbourg being 3,184.

But the Deutschland, Oceanic and New York will be heard from today unless something has gone wrong.

Schurz, who will not be here, will insist on an endorsement of Bryan and Stevenson and that he will be aided in this by Henry U. Johnson, republican congressman from the sixth Indiana district. Charles E. Howland of New York says that the impression in the East is that the anti-imperialism will join in the third ticket movement.

## BURR W. JONES HAS DECLINED THE HONOR

The Madison Attorney Is Not After the Badger Democratic gubernatorial Nomination.

Milwaukee, Aug. 14.—The democratic state convention will be held in the Pabst Theatre, where the democratic hosts have gathered on other occasions. This was announced today by Chairman Peck. There will be 663 delegates. John C. ("Ikey") Karel will be sergeant-at-arms of the convention. "Ikey" made a record at the spring convention that insures a good handling of the coming one.

Burr W. Jones of Madison, is the latest democrat to decline the nomination for governor. The boom which was being nursed for Judge Gilson flattened out when it was discovered that the judge was a gold democrat in 1896. Furthermore, it was very certain that he would not give up a position at \$5,000 a year for the empty honor of heading the democratic state ticket. Louis G. Bonrich still has no opponent for the nomination.

# BADGER BANKERS MEET TOMORROW

## Business Session at the Hotel Pfister in Milwaukee Will Last But One Day—The Speakers.

Milwaukee, Aug. 14.—The State Bankers' Association will open its session at the Hotel Pfister tomorrow. From the reports received by the officers it is expected that the attendance will be larger than ever before. This evening the members will be entertained at the County Club, where a concert will be given. The business session will take but one day.

Among those who will speak before the association are F. W. Hayes of Detroit, Mich., and George W. Burton of La Crosse. The session will close tomorrow evening with a banquet at the Pfister. Mr. Hayes will speak on clearing-house topics and Mr. Burton on "Further Financial Legislation."

## F. P. VAN VALKENBURGH DIES

Wisconsin Cyclist Expires Suddenly—Formerly Prominent in L. A. W.

Milwaukee, Wis., August 14.—Frank P. Van Valkenburgh, a well known cyclist, died suddenly yesterday, supposedly from hemorrhage of the brain. Mr. Van Valkenburgh served one term as chief consul of the Wisconsin division League of American Wheelmen and was assistant United States district attorney for the eastern district of Wisconsin under the Cleveland administration. He was 45 years old.

## G. P. MILLER FOR SENATOR

He Was Nominated by Dane County Republicans Today.

Madison, Wis., August 14.—George P. Miller, a wholesale lumber dealer of this city, was today nominated by the republicans for state senator in the Twenty-sixth district, which comprises Dane county. The convention also elected delegates to the republican congressional convention to be held in Watertown, September 12.

# MEET ON AN OLD BATTLE GROUND

## Historic Spot on Battle Island Where Many Whites Were Killed by Indians.

La Crosse, Wis., Aug. 14.—The third annual encampment on the old Black Hawk battle grounds on Battle island near Victory opened yesterday. The grounds are historical, it being there that so many whites were killed by the redskins in the Black Hawk war. It was here that old Chief Winneshiek of the Winnebago tribe, who died a few years ago at the age of 100 years, led his following of thousands of Indians on against the whites.

The Sacs and Fox Indians made a treaty July 15, 1830, at Prairie du Chien, but Black Hawk refused to submit to it. Black Hawk was defeated on the Wisconsin river July 21, 1832, by General Dodge, and August 2 of the same year was captured on Battle island.

# PUT BAN ON POLITICS

## Printers Act at Milwaukee—President Donnelly Applauded for Ruling Out Party Propositions.

Milwaukee, Wis., Aug. 14.—The printers and allied crafts in their international convention today served notice on politicians who might be ambitious to serve endorsements or favorable mention that they will have no place in the business of the various sessions, no matter what stamp they may bear. President Donnelly rendered the decision of the convention when he ruled out of order two propositions bearing on politics, and his decision was loudly applauded by the delegates.

# RUSSIAN TROOPS SHOW NO MERCY

## No Prisoners Taken At the Battle of Algun and All of the Wounded Are Killed.

London, Aug. 14.—The Daily Mail's St. Petersburg correspondent declares that the taking of Algun has sealed the fate of the rising in northwestern Manchuria. He adds:

"No prisoners were taken by the Russians. Wholesale massacre was the order of the day, and when the battle was over the Cossack rode over the field killing all the wounded with the butt ends of their muskets."

# JENKINS BY ACCLAMATION

## Present Congressman From Tenth District Will Be Renominated

Menomonee, Wis., Aug. 14.—The Tenth District Congressional convention will be held here tomorrow. Congressman John J. Jenkins will be renominated as sixty-six of the eighty-nine delegates to the convention are instructed to vote for him.

# GENERAL WHEELER SAVES BRYAN'S BOY

## Rescues Young Son of Democratic Nominee from Being Dashed to Death on a Chicago Sidewalk.

Chicago, Aug. 14.—General Joe Wheeler is irreplaceable. He has probably had as many opportunities of displaying a quick wit and a clear head in an emergency as any man living and in all his long career he has let none of his chances go by.

Yesterday morning he saved the life of a boy in his offices at army headquarters in the Pullman building. The boy in the case was William Jennings Bryan, Jr., the 12-year old son of the democratic candidate for the presidency.

The lad visited General Wheeler, and the latter after his first greeting, turned to his work and left the lad to amuse himself as best he might. Young Bryan is very much like other healthy boys of his age, and naturally enough soon got into mischief. He found a loose chair caster and then hunted around till he secured a big bundle of rubber bands. These he tied into a long string

and then, securing the caster to the bottom, went to the window and began bouncing the piece of iron up and down on the sidewalk, seventy-five feet below.

The general, engrossed with his labors, paid no attention to the boy, who gradually became so interested in his play that he leaned farther and farther out of the casement of the window. "Fighting Joe" happened to glance up a few moments later and was horrified to see the lad hanging with his whole body over the sidewalk and only the toes of his shoes visible clutching the angle of the window. He sat agast for a moment. Then, rushing to the window, he pulled the lad in by his legs and landed him safely on the floor.

Speaking of the occurrence afterward, General Wheeler acknowledged that young Bryan was within an inch of being dashed to death on the pavement below when he caught sight of him.

# SUDDEN DEATH OF C. P. HUNTINGTON

## Veteran Railway Magnate and Millionaire Expires in the Adirondacks.

# DISEASE OF THE HEART

## Lived Only a Few Minutes After He Was Seized With the Attack.

# BODY BROUGHT TO NEW YORK

New York, Aug. 14.—[Special Telegram]—Collis P. Huntington, the veteran railway magnate and millionaire, died suddenly last evening at his summer home at "Camp Pine Knot" in the Adirondack mountains. He was seized with a sudden illness.

Everything possible was done to relieve him but he lived only a few minutes from the time of the attack.

The news reached the city early this morning, being brought from Durant's camp and Racquette lake late last night.

Huntington's home is near the camp. He has been in the mountains some time. He usually leaves the city during the heated term and spends his time in the cool Adirondacks.

It is not yet known what the nature of his illness was but it is thought to have been an affection of the heart. The body will be brought to New York immediately.

The death of Huntington was a shock to Wall street, but caused little disturbance in values. The officials in New York upon whom Huntington placed his chief dependence say that no changes will be made in his business interests, except those that are necessary, as the machinery he organized will practically run itself. His property is so arranged that there will be no sales whatever.

About the succession to the presidency of the Southern Pacific his friends say it is too early to speak. Huntington's nephew, H. H. Huntington, vice president of the Southern, is now in Texas and will come to New York immediately.

The sudden death of Huntington shocked the members of the national republican committee. The financier was a warm friend of the committee. Expressions of regret were heard on all sides. Huntington was a liberal contributor to the campaign fund. Joe Manley, in a typewritten statement to the press, warmly eulogized the dead millionaire, saying that he was the largest employer of labor in the land and always had admiration and respect for his employes.

# TWO LITTLE GIRLS DROWNED

## Fall Off Raft on Which They Were Playing at Necedah

Necedah, Wis., Aug. 14.—Sadie and Libby Lauk, aged 9 and 4 years, drowned in the river here yesterday. They were playing on a raft and fell off in water four feet deep. A companion gave the alarm and the bodies were taken out in thirty minutes, but efforts to restore them were unavailing.

CHIEF HOGAN received a telegram from the chief of police at Madison yesterday asking him to look out for two men with grips filled with revolvers and knives.

## BOYS WITH MATCHES SET BARN ON FIRE

FARMER REDDY NEAR CLINTON  
HAS A SERIOUS LOSS.

With Difficulty Some Railroad Men  
Who Happened to be Near Saved  
the House—Clinton is in Hopes of  
Soon Having Street Lights—News  
and Notes.

Clinton, Aug. 14.—While Mr. and Mrs. J. Reddy were absent from home last Thursday morning it is supposed the boys went to the barn and while playing with matches the barn took fire, which was discovered by section men working on the C. M. & St. Paul R'y. They hastened to the place but not in time to save the building, and by hard work only succeeded in keeping the house from burning as it caught fire several times. The property is owned by Dell Wright and was insured in the Town Insurance Co. Two horses, farming tools, some hay and corn were burned.

Clinton is again hopeful of having the streets lighted after being in darkness for a whole year. It has been unsafe to start out without providing one's self with a lantern many times. An experiment is being made with a sort of gasoline lamp, which, if it proves satisfactory, will be used.

Lima Stars Defeated by a Pick-up  
Team—Social and Personal  
Notes and News.

THE GAZETTE AGENCY  
W. W. CLARKE, Manager  
Milton, Wis., Aug. 14, 1900.

Sunday forenoon Conductor Duddie's caboose tried to leave town on both the Prairie du Chien and Mineral Point divisions at one and the same time, but the scheme didn't work and the train was delayed for an hour. However, it furnished some excitement for the spectators.

The Lima Stars, not satisfied with their former defeat, came here Monday afternoon for another game with the Milton "pick-ups." The home team had their whitewash bucket out and used the brush on the visitors for eight innings, the score being 9 to 1 in favor of Milton. It was a lifeless game after all, both teams lacking ginger. Batteries, Milton, Cole and Green; Lima, Vandewalker and Wurfl. Umpire, Crumb.

He is also organist of the Scottish Rites Cathedral and also of the Cook avenue Methodist church of St. Louis. Mr. Hatfield says Missouri will give McKinley and Roosevelt a large majority this year.

**Cleanest in America.**  
The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road bed for that reason is rock-ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler in the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

## WILL PAY \$218,000 IN WAGES

Notable Event in the History of the Illinois Steel Works

Chicago, Aug. 14.—This was a red-letter day for the employees of the Illinois Steel works. Incidentally it also shows that the period of prosperity and of the full dinner pail is at high-water mark.

For two weeks' services the men today received \$218,000.—The largest pay roll ever made up in the history of the Illinois steel works. The figures are significant of the flourishing condition of the iron trade and of the industries that are allied with it.

## IN MEMORY OF NANCY DAVIS CHURCH

Nancy Davis Church was born in Orleans county, New York, August 29, 1814, and died at her home in Milton Junction, Tuesday, August 8, 1900. In 1833 she was united in marriage to Silas Church. Eleven years afterwards in 1844, they moved west, and settled in the town of Johnstown, and on this farm they passed a greater part of their married life, enduring the hardships incident to pioneer life, but through it all, rearing a home, that in later years has borne rich returns. Mr. Church died in 1891. Mrs. Church and a daughter and a son remained upon the homestead, however, until five years ago, when they became residents of this village. Mrs. Church and her daughter, Minerva, whose death was recorded in these columns about a month ago, suffered from poor health for some time. Upon the death of the latter, the aged women grew worse until she passed away. Mrs. Church leaves three sons to mourn her death, Fred, with whom she has resided since her husband's death; George, who is a farmer in the town of Lima, and Orville, who resides in Janesville.

An early settler, Mrs. Church enjoyed a wide acquaintance and many friends, and the funeral which was conducted by Rev. Mr. Varney at the home on Friday, at 2 o'clock, was largely attended by those who came to pay the last tribute of respect to this noble woman. The remains were laid to rest in the beautiful cemetery at Milton.

## NO SCUTTLE POLICY.

OUR PHILIPPINE OBLIGATIONS WILL BE FULFILLED.

National Honor to Be Maintained. Obstructionists at Home Block the Way to Peace and Stable Government in Our Islands.

Some things have happened which were not promised, not even foreseen, and our purposes in relation to them must not be left in doubt. A just war has been waged for humanity, and with it have come new problems and responsibilities. Spain has been ejected from the western hemisphere, and our flag floats over her former territory. Cuba has been liberated, and our guarantees to her people will be sacredly executed. A beneficent government has been provided for Porto Rico. The Philippines are ours, and American authority must be supreme throughout the archipelago. There will be amnesty broad and liberal, but no abatement of our rights, no abandonment of our duty. There must be no scuttle policy. We will fulfill in the Philippines the obligations imposed by the triumphs of our army and by the treaty of peace, by international law, by the nation's sense of honor and, more than all, by the rights, interests and conditions of the Philippine people themselves.

No outside interference blocks the way to peace and a stable government. The obstructionists are here, not elsewhere. They may postpone, but they cannot defeat the realization of the higher purpose of this nation to restore order to the islands and establish a just and generous government, in which the inhabitants shall have the largest participation for which they are capable. The organized forces which have been misled into rebellion have been dispersed by our faithful soldiers and sailors, and the people of the islands, delivered from anarchy, pillage and oppression, recognize American sovereignty as the symbol and pledge of peace, justice, law, religious freedom, education, the security of life and property and the welfare and prosperity of their several communities.

We reassert the early principle of the Republican party, sustained by unbroken judicial precedent, that the representatives of the people in congress assembled have full legislative power over territory belonging to the United States, subject to the fundamental safeguards of liberty, justice and personal rights, and are vested with ample authority to act "for the highest interests of our nation and people interested to its care."

This doctrine, first proclaimed in the cause of freedom, will never be used as a weapon for oppression. I am glad to be assured by you that what we have done in the far east has the approval of the country.

The sudden and terrible crisis in China calls for the gravest consideration, and you will not expect from me now any further expression than to say that my best efforts shall be given to the immediate purpose of protecting the lives of our citizens who are in peril, with the ultimate object of the peace and welfare of China, the safeguarding of all our treaty rights and the maintenance of those principles of impartial intercourse to which the civilized world is pledged.

I cannot conclude without congratulating my countrymen upon the strong national sentiment which finds expression in every part of our common country and the increased respect with which the American name is greeted throughout the world. We have been moving in untried paths, but our steps have been guided by honor and duty. There will be no turning aside, no wavering, no retreat. No blow has been struck except for liberty and humanity, and none will be. We will perform without fear every national and international obligation. The Republican party was dedicated to freedom 41 years ago. It has been the party of liberty and emancipation from that hour, not of profession, but of performance. It broke the shackles of 4,000,000 slaves and made them free, and to the party of Lincoln has come another supreme opportunity, which it has bravely met in the liberation of 10,000,000 of the human family from the yoke of imperialism.

In its solution of great problems, in its performance of high duties, it has had the support of members of all parties in the past and confidently invokes their co-operation in the future.—From President McKinley's Speech of Acceptance.

## FIVE DAYS IN A TRANCE.

Remarkable Case of Suspended Animation in Milford, Conn.

Sophie Fowler, the 12-year-old daughter of Mark Fowler of Milford, near Bridgeport, Conn., failed to come down to breakfast on Monday, July 30. Mrs. Fowler found Sophie unconscious in bed. There was every indication of death, but Dr. A. L. Tuttle said the girl was in a trance. The physician tried every method to restore the child, but could not. He left instructions to watch for the slightest change in the girl's condition, but none came until Sunday afternoon, Aug. 5, when Sophie awoke just as though from a natural sleep, says the New York World.

Mrs. Fowler said nothing to her about her long sleep, but curiously waited to see what her daughter would do. She arose, dressed and said: "I must hurry or I will be late to school. But what a strange dream I had!" she added.

Then Mrs. Fowler told her daughter she had been asleep since Monday. The child could scarcely believe it, but told of a strange vision she had seen of heaven. The girl is perfectly healthy and has had to relate her dream many times to callers, some of whom believe she is inspired. Sophie says she seemed to have been flying through space for almost a day, and then she found herself among people who were strangers to her, but who welcomed her cordially.

"I don't want to say that what I saw was heaven, for it was different from what I have thought heaven was like. Still, there seemed to be much happiness there, and I did not see one person who looked tired or poor. But my idea of heaven before this was that everything was dazzlingly splendid and that every one was dressed in white. The place I have been in was not much different from this world except that everything—the people and the trees and the birds—seemed to be nearer perfection. Why, there were colored dresses there and just as many kinds of styles as here, only everybody wore good clothes and none poor ones. "There was one time when I heard the most beautiful music. I wish I could remember more distinctly about that, for that was the only thing that seemed greatly different from this world. Everybody seemed to be singing at this great service. Every one came to this service. There did not seem to be any other church or house of worship to go to. Strange as it may seem, no one slept there at all. And I did not grow sleepy at all. What impressed me most was not that everything was so different there, but that everything I did see was so like what we call nearest to perfection here."

## NEW FAD IN MEN'S DRESS.

Correct Costume For a "Shirt Waist" Man to Wear.

The proper attire for a "shirt waist" man, according to Joseph Goodman, who made the first negligee shirts worn by English royalty and now sets New York shirt waist fashions, is a fine Panama alpaca hat or a rough straw stiff one, a well cut soft shirt and trousers held up by a belt, says the New York World. The trousers must be cut low in the hips, and there must be no suspender buttons on the outside. Hip pockets are not allowable. The belt should be held by four or six straps of the same cloth as the trousers. The watch must be fastened to a leather strap to match the belt.

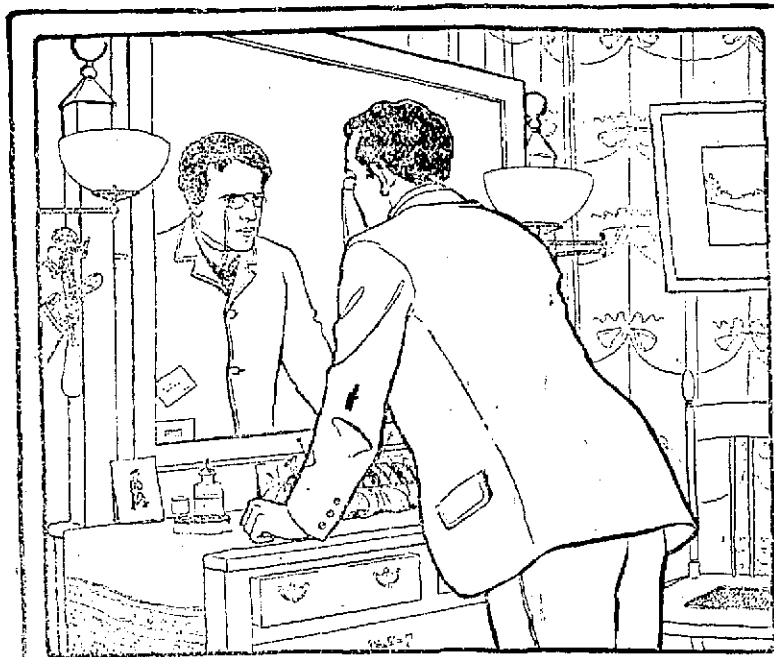

The shirt should be cut rather close to the figure and not be so loose in the back as for shirts to be worn with a coat. The sleeves, too, must be rather scant, so that they won't balloon out with every puff of wind. The cuffs must of course be attached, and the collar should be of the best white linen, preferably a turndown or high banded Eton with round corners.

## LATEST SEASIDE SPORT.

Water Baseball and How It Is Played by Young Yachtsmen.

This year all the young yachtsmen along the Long Island sound, who spend almost as much time in the water as out, are playing water baseball, says the New York World.

Anywhere from six to nine men can play on a slide. The three bases are three moored rowboats. The "field" is small. The home plate is on a float, where pitcher and catcher also stand. Instead of a baseball, which would go entirely too far, a light boy's ball is used, and instead of a bat a broomstick or light wand. With this the ball is seldom batted more than a few rods. When it is batted, the nearest fielder

## TO THE MAN WHO THINKS.

LOOK yourself squarely in the face and see if you are not half ashamed to be without Ivory Soap in your house. Worse than this, your wife is without it. It is bad enough for a man, though a man often doesn't care how his comfort is mis-spelled. But a woman misses all these little helps to housekeeping. And Ivory Soap is one; its great potency makes it actually cheaper than yellow soap for general work. It floats.

swims for it, puffing and blowing like a porpoise, while the batsman, with a prodigious dive for a starter, swims to first. If he touches the boat, he is "safe."

After the fielder has the ball he clears his shoulders above the water surface to "throw in." So the game is usually a batsman's affair, with good big scores and plenty of running (swimming).

## The Red Cross in China.

A phase of the trouble in China which may prove to be of great importance is the fact that the government of that country is not a party to the Geneva Red Cross convention, by which the signatory powers bound themselves in time of war to respect the Red Cross and to treat surgeons and nurses belonging to the armies of the enemy as noncombatants, says The Medical Record. It is thought possible that this fact may deter the war department from permitting any of the women nurses who are being sent to the far east from landing in China for duty there. There were 19 female nurses on the transport Grant with General Chaffee and five on the Sumner, which sailed from San Francisco a few weeks ago.

## WHY IT SUCCEEDS.

Because It's For One Thing Only, and Janesville is Learning This.

Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills do one thing only They're for sick kidneys.

They cure every kidney backache.

Here is Janesville evidence to prove it:

Mrs. S. L. Beaden, of 61 S. River St., says: "During two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did any lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the People's Drug Co.'s store and persuaded me to use them. They took right hold and made a wonderful change in my condition. I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions." For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

## HAPPY WORKINGMEN.

The Milwaukee Building Trades

Council, in an invitation to the public

to participate in its Labor Day celebration

on September 3, says:

"The year 1890-1900 has been the most

prosperous twelve months ever enjoyed by the

citizens of Milwaukee.

"All manufacturing and business houses have

shared profitably in the general prosperity.

The building interests have been busy and

wage-earners have found plenty of employment

under fair conditions and at reasonably good

pay. The period has been the most peaceful in

the annals of our city. Not one serious difficulty

between employers and employees occurred.

"Not one strike or lockout of any importance

has disturbed the remarkably amicable relations

existing between capital and labor this year.

These few lines speak volumes. They

do not emanate from political sources,

but from the men who first feel the effect

of hard times—the men who earn their

living by the sweat of their brows.

Mr. Bryan told these men, four years

ago, that unless free silver was forth-

coming, the money power would crush

them out of existence, or they would be

out mere slaves. Yesterday they signed

their name to the statement that the

past year had been "the most prosperous

ever enjoyed by the citizens of Milwau-

kee." Talk is cheap, but it takes results

to win votes. The Milwaukee work-

men evidently take no stock in Bryan's

clap-trap. They know good times when

they see them, and they know what

brings them about.

The senatorial and assembly caucuses

should be largely attended. All good

citizens should take an interest in poli-

tics, and the vital spot is the caucus.

The fact that there is no contest should

make no difference. A big caucus vote

shows an interest, and presages a big

vote on election day.

The increase in individual deposits in

Wisconsin banks during the past four

years amounts to \$21,360,907. Badger

state people do not think they need a

"change." The change was made in

1896, and has since been on deposit in

the strong boxes.

The Wisconsin Carriage Company

will remain in Janesville, the citizens of

the Bowler City having "come forward"

liberally. This is as it should be. Every

industry should be retained, and as many

new ones as possible secured.

The Ohio gentleman who murdered

an express messenger and robbed the

car in order to get money to get married

will doubtless get his head into the

hangman's rather than the matrimonial

noose.

And now the charge is made that

Bryan's book was printed in a "scab

shop," and the union printers propose

to make a row over the fact.

Plans for the betterment of the police

system are now being made, and exist-

ing weaknesses will be "fixed so they

will stay fixed."

Jerry Simpson, the former Pop. con-

gressman now wears a shirtwaist. Thus

has the sockless also become shirtless

Mr. Bryan is still talking against time,

and also fate.

## LOST IN AN IRON MINE.

Lamps Go Out and Four Persons Seek

an Exit for Eight Hours.

New York, Aug. 14.—Miss Lillian

Lawall of Easton, Pa., Miss Mabel Cor-

rier of Brooklyn, Miss Maud Miller of

New York and Fred Schurtz of New-

ark, N. J., suffered an uncomfortable

experience in an abandoned iron mine

recently near Lake Hopatcong, N. J.

The four went, after luncheon, to ex-

amine an old shaft at Point Comfort.

In answer to the apprehensions of a

friend Miss Lawall said: "If we are

not back by dinner time, you can or-

ganize a party and come to our res-

cue." When the party had not re-

turned by 9 o'clock a searching party

was formed by the thoroughly fright-

ened friends of the young people. The

searchers entered the gloomy mine

well provided with lights and after a

time came upon the three young wo-

men and their escort. They had lost

their way and while endeavoring to

find some exit their oil in the bicycle

lamps they carried had become ex-

hausted, leaving them in total dark-

ness. The four had been imprisoned

eight hours.

ENGLISH FARM HANDS REBEL.

American Reapers Wrecked—Users of

Machinery Threatened.

London, Aug. 14.—The English farm

workers are manifesting violent op-

position to the introduction of American

agricultural machinery. Some of the

farm hands of Gloucestershire, em-

bittered at the prospect of losing em-

ployment owing to the introduction of la-

bor-saving inventions, wrecked a num-

ber of reapers and threatened ven-

geance against anybody who should at-

tempt to employ similar machinery.

Mr. P. Anderson Graham, a well-

known agricultural authority, said:

"Notwithstanding the hostility of

the laborers to these modern inven-

tions, England must adopt them or

suffer from competition.

"Our present system of handling

products is altogether too costly.

American wheat undersells English

wheat in the English market, because

of extensive use of economical machin-

ery in the United States."

# CAUSED BY NEGLIGENCE CORONER'S JURY REPORT

Strong Verdict Is Rendered in the Investigation Over  
the Fatal Railroad Wreck in This City  
Friday Afternoon.

## FIVE MEN CHARGED WITH CARELESSNESS

They Are Yardmaster John Kelley, Switchmen Fenton Winans, George Hiller, Engineer A. C. Rogers and Dennis Sullivan.

An inquisition taken at the city of Janesville, in the county of Rock, on the 14th day of August, 1900, before Jesse Earle, one of the justices of the peace of the said county, upon the view of the bodies of E. P. Schlatter and Gustave Abendroth, who, being duly sworn, to inquire on behalf of this state when, in what manner and by what means the said E. P. Schlatter, and Gustave Abendroth came to their deaths, upon their oaths do say that the said E. P. Schlatter, and Gustave Abendroth came to their death upon the 10th day of August, 1900, by means of a railroad collision at the City of Janesville, Rock County, Wisconsin, caused by the negligent acts of Yardmaster John Kelley, Switchmen Fenton Winans and George Hiller, Engineer A. C. Rogers and Fireman Dennis Sullivan.

In testimony thereof the said Justice of the Peace and the Jurors of this inquest have hereunto set their hands this day and year as aforesaid.

JESSE EARLE, Justice of the Peace.  
F. L. STEVENS,  
LOUIS A. HEMMENS,  
H. E. WATSON,  
J. L. BEAR,  
O. F. NOWLAN,  
Jurors.

The coroner's jury, consisting of O. F. Nowlan, J. L. Bear, J. H. Watson, L. A. Hemmens, W. H. Rothermel and H. E. Cary, called for the purpose of holding an inquest over the remains of E. P. Schlatter and Gustave Abendroth, who were killed in the wreck on the C. M. & St. P. R. R. Friday afternoon, met in Justice Earle's court this morning and heard testimony regarding the cause of the wreck.

The first witness called, was John Kelley, the yardmaster of the C. M. & St. P. road. He testified that he was the yardmaster, and was acting in that capacity on the 10th day of August, when the wreck occurred. He saw the men with the engine coming down the track near the five points, and signalled them to come ahead down the main track. He jumped on the foot board with them to ride down to the depot, and went into the station to find out where 106 was.

Know the Train Was Late  
Hayes, the operator, told him that 106 was 15 minutes late at Davis Junction, and was not in yet. He looked at the clock and saw it was then 1:05 o'clock, and should have been here if it made up time. He told the switch crew, consisting of engineer Rogers, fireman Sullivan and switchmen Hiller and Winans, to go on and get five cars of coal on the long siding and bring them down to the station. He did not go back to the engine, but went over to the freight house.

No. 106 came in almost as soon as the switch engine had left, and pulled out while he was crossing from the freight house to the passenger depot. The cars on the east side of the river were on the east end of the side track, which is near the Hanson Furniture Co's factory.

No Right on Main Track  
The orders are that the switch engine has no right on the main track on a passenger's time and no one has any right to go against the time but may go ahead if they duck into a switch out of the way when there is danger.

He meant that the men with the switch engine were to go over ahead and stay on the siding until the passenger had passed and did not tell them to return and did not intend they should or he would have held the train.

He supposed they would wait for the passenger train, as they are old experienced men and have both been yardmasters, and would remain on the siding until the passenger was out of the way, this was probably done one hundred times a week.

The passenger always has absolute right of way except in case of necessity. He did not tell them he would hold the passenger as he had no right to do such a thing except in case of necessity and there was no necessity in this case. His business was to see that all the work was done and done right, but he could not be everywhere and had to trust a great deal to his men.

How Engineer Saw It  
A. C. Rogers, engineer of the switch engine was the next witness. He had been an engineer 28 years, had been on the switch engine since '81. His fireman on the 10th of August was Dennis Sullivan. He ran the engine on the main track at one o'clock and ran down to the depot and stopped. He continued:

"Winans and Hiller were on the foot board and Kelly got on on the way down. Kelly went into the depot but could not hear what he said or what the operator said. Winans went into the depot with Kelly. We knew 106 had not arrived, but started out and went up on the east side of the river and went on on the long track and coupled onto the five cars of coal and ran out onto the main track.

"Winans threw the switch and got

onto the last car as it came along. Both Winans and Hiller were on top of the cars. I had started toward the city on the main track and had gone about 14 car lengths when Winans gave me the signal to stop, set some brakes and climbed down the car.

"There was some stock cars on the west track and when I passed them could see the passenger train coming up from the direction of the gas house about five hundred or six hundred feet away. They were working steam and I knew they had not seen us or they would have shut off steam.

"I shut off steam on the switch engine reversed it and put on the sand and was almost still when the crash came. The engine was not damaged by the shock.

Hiller Saw Them Coming  
"Hiller had jumped off and had run ahead of our cars trying to attract the attention of the men on the passenger engine. They were eight or ten cars distance when I first saw them and they could have stepped in that distance if they had seen us, think they were running about eighteen or twenty miles an hour. The switchmen must have seen the passenger before I did as they were on top of the cars.

"The sidetrack is about 1500 feet long and holds thirty-two cars. My fireman got the signal to back out on the main track, and it is the engineer's duty to obey all signals although we would not knowingly run into danger. The engine should not have been sent out on the passenger's time.

Fireman Tells His Story  
Dennis Sullivan, fireman on the switch engine, was next called. He was with Mr. Rogers on the 10th of August. He said:

"We left the depot to go after the cars on the east side of the river about one o'clock. We went up to the long siding, got the five cars and started out onto the main track slow but got the signal faster and soon got the signal to stop. Rogers reversed the engine. We had on five cars of coal and they being ahead of the engine I could see nothing from my side on account of the curve in the track, so stepped over to Rogers side of the engine and saw 106 coming about four hundred feet distant.

"Rogers had seen them before and was trying to stop. The passenger engine worked steam until within one hundred and fifty feet of the coal cars. He jumped off the switch engine, and after the crash came he ran right down there. There was sand on the rails and Schlatter had reversed his engine, showing they had tried to stop.

"There was so much steam coming out that he could not see the engineer or fireman. They were on their own sides of the engine with their backs to the boiler head and had evidently turned to get out when caught in the crash. There was sand on the track for the length of the engine, but only on one side."

Story of George Hiller  
George Hiller had been a switchman for ten years, and was on the 10th of August. Kelly sent them to get five cars of coal on the east side of the river and bring them back to the depot. They went up to the siding, took them out on the main track and started to back down toward the station. When about fourteen car lengths from the switch they saw 106 coming; jumped down from car and ran ahead of the coal cars towards the passenger with his bat in his hand, waving his arms and screaming, trying to attract the attention of the passenger engineer or fireman. When the passenger engine was almost on him he jumped off the track out of the way and was right opposite the water tank of the passenger engine. The passenger train was about one hundred rods away when he first saw it. Kelly stayed at the office, and they supposed he would flag the passenger.

What Operator Hayes Knew  
J. W. Hayes, the operator at the passenger station, told Kelly that 106 left Davis Junction fifteen minutes late. He thought that the switch engine had not been away more than a half minute before the passenger came in. The passenger registered in at 1:05.

Winans the Next Witness  
Fenton Winans was the next witness. He was in the employ of the St. Paul company on August 10 and went up with the switch crew after the coal cars on the long siding near the Hanson factory. They hitched onto the cars, ran out on the main track and started for the city.

Hiller was on the foot board of the car and suddenly

to stop and dropped off the train. He answered the signal and set two brakes. Then he saw 106 coming over the bridge. They were then going as fast as a man could walk.

He heard Hiller holler and jumped off and landed about the time the crash came. He ran to the passenger engine to see if he could hear any noise and then went to the Hanson factory and called for help from the depot over the telephone and called the fire patrol. At the time he first saw the passenger the two trains were about 12 or 15 telegraph poles apart. They had not been away from the depot ten minutes, when the accident occurred.

Late Into Janesville  
William Spencer, conductor of 106 was a few minutes late into Janesville and left about 1:07 o'clock for Milton. Did not see the switch engine and crew when the passenger pulled out and did not know they were out. Was in the rear coach when crash came and the train was running about its usual speed. The first warning he had that anything was wrong was when he felt the air brake put on. He was near the door and before he could open the door and step out to see what was wrong the crash came.

A Dimmock, the baggageman, was the last witness. He saw the switch engine just leaving the yard as the passenger pulled in; did not know anything about the cause of accident. He felt the air brake put on and the crash came almost immediately.

## VETERANS REUNION OF ROCK COUNTY

ANNUAL EVENT AT EVANSVILLE ON AUGUST 16.

Soldiers and Sailors of the Civil War Will Meet—An Elaborate Program Has Been Prepared for the Occasion—Many Will Be Present at the Exercises.

The annual reunion of the ex soldiers and sailors of Rock county will be held at Evansville Wis., August 16th. A large number of ex soldiers and sailors will be present at that time and take part in the exercises. It is estimated that there will be at least five hundred of them at the meeting.

An elaborate program has been arranged, consisting of speeches and vocal and instrumental musical selections. Colonel E. O. Kimberley, the National Soldier Singer, will be present and take part in the exercises.

The records of the T. L. Sutphen G. A. R. post and all the names of soldiers and sailors who register at this reunion, will be included in a box and deposited under the cornerstone of the base of the cannon, presented to the T. L. Sutphen Post, G. A. R. by the city council.

The order of exercises will be as follows:

At Sunrise—Firing of salute.  
9 a. m. to 12 m.—Social meeting.  
12:30 a. m. to 1 p. m.—Dinner.  
1:15 p. m.—Presentation and dedication of cannon from city council to T. L. Sutphen Post, G. A. R., presented by Mayor P. C. Wilder, unveiled by eight little girls, decorated with Old Glory, accompanied by an appropriate song by Colonel Kimberley, the "National Soldier Singer," accepted by Dr. L. B. Beebe.

2:00 p. m.—Procession forms on South Madison street in front of city hall, led by Miss Mabel Hall on her trained white horse, to city park, where seats will be provided for everybody while listening to an address given by Capt. A. E. Bushnell of Madison, and other noted ones who are to be present.

Plenty of good music both vocal and instrumental by the best obtainable talent will intersperse the exercises.

Miss Cora Burr will give an amusing club exercise, and a flower drill will be given by 16 young ladies.

At 3:30 p. m.—Business meeting.  
From 7 to 9 p. m.—Supper.

Some of veterans of all wars are cordially invited to attend and all citizens interested in the exercises will be given a hearty reception.

## RUNAWAY HORSE SLIPPED AND FELL

A gray horse, belonging to Richard Finley and driven by Mrs. Finley, who had two young ladies with her, ran away last night about 8:30 o'clock while coming down Milwaukee street.

The horse ran as far as Main street and is attempting to turn the corner ran up on the sidewalk and fell. He was caught by some bystanders and stopped. The only damage done was a few broken straps and some badly frightened ladies.

A pony wagon, belonging to the Gentry show, broke loose from a string of wagons that was being hauled to the depot last evening and collided with a buggy in front of the Peoples' drug store. No damage was done, the two young ladies in the buggy getting a momentary scare.

## PRES. SALISBURY LECTURES TONIGHT

President Salisbury of Whitewater Normal School, was a visitor at the Rock county teachers' institute today. He will lecture at High School hall tonight on "The Wants of a Man." The lecture will be free. State Superintendent Harvey was here yesterday afternoon, but left for Madison last night. The institute has now increased to 122.

AVON  
—Avon, Aug. 14.—Frank Willard and Eugene Clark drove to Madison last Sunday. The harvest dance at Woodman hall last Friday night went off very pleasant, and all had a good time. Horace Beal will have one of the finest cottages in Avon. Mr. and Mrs. Truman lack and family spent Sunday with J. and Mrs. Charles Clark.

## WILL ALL SUPPORT OGDEN H. FETHERS

BUT ONE WISCONSIN CANDIDATE FOR K. P. HONORS.

Frank Barry Does Not Seek a Position, and Says But One Name Will Be Urged at the Convention—Mr. Fethers to Get the Place.

Wisconsin Knights of Pythias will have but one candidate for a high position at the coming national convention—Ogden H. Fethers, of this city. Frank Barry, of Milwaukee, whose name was used in connection with a place, writes to the Milwaukee Journal as follows:

To the Editor of The Journal: Referring to an article in your issue of Saturday, the 11th, under the caption: "Barry Wants High Place" which is an unfortunate misstatement and likely to prove very mischievous, I beg to request that you publish this denial:

You state that the Knights of Pythias of Wisconsin will try to elevate Hon. Ogden H. Fethers to the supreme chancellor's chair during the coming convention of the supreme lodge of the order, and at the same time, elect the undersigned to the command of the Uniform Rank. The inference is clearly that the members of the order in this state in their greed wish to absorb all the honors that are in the gift of the supreme lodge. This is an injustice to the knights and I believe is intended to injure the candidacy of Hon. Ogden H. Fethers for the supreme chancellorship, if that were possible.

The fact is that Mr. Fethers, who is now supreme vice chancellor, will by right of an unbroken precedent, as well as through his merit and strong national popularity, become the supreme chancellor and head of the order, without any action on the part of the knights of our state.

The assertion that the undersigned will be a candidate for the office of major-general of the military branch is without foundation, as is the statement made regarding salaries. Even if he were eligible to the office and competent to fill it, he has no desire for it and positively could not afford, from business reasons to accept it.

Wisconsin will support the Maj. Gen. James R. Carnahan, who was the founder of the Uniform Rank, so long as he can and will continue to serve as commander, and after that, the name of the undersigned can never be presented as his successor, by his consent.

Respectfully, FRANK BARRY.

## FOUND A STRANGE MAN IN HER HOUSE

Yesterday morning about 11 o'clock when Mrs. Mallett, wife of the engineer at Blodgett's mill, returned home from a trip down town, she discovered a strange man in the house in the act of robbing a child's bank. She ran to the door and called to Mrs. Flaherty, who lives across the street. Mr. Flaherty, who was at home at the time, chased the thief to River street but was unable to catch him. The thief dodged around the cars on River street and Flaherty lost track of him. He was a slight man and was dressed in a suit of light clothes. He secured a small amount of change from the child's bank.

## CRY OF DISTRESS SENT FROM CHINA

### BRITISH MINISTER AT PEKIN APPEALS FOR AID.

**Refuses an Offer of Escort to Tien Tsin Because He Does Not Trust Chinese—Russians Fight for a Railway—Americans Under Fire—Allies Advance.**

London, Aug. 14.—The British consul at Canton, says the Daily Telegraph's correspondent there, has received the following message, dated Aug. 6, from Sir Claude MacDonald, British minister in Peking:

"Our situation here is desperate. In ten days our food supply will be at an end. Unless we are relieved a general massacre is probable."

"The Chinese offer to escort us to Tien-Tsin, but, remembering Canton, we refuse the offer. There are over 200 European women and children in this legation."

### RUSSIAN FIGHT FOR A RAILWAY.

**Chinese Defeat Of In Several Recent Skirmishes in Manchuria.**

Moscow, Aug. 14.—There has been constant fighting along the Sungari river, at various stations on the Manchuria railway. Up to Aug. 6 the losses sustained by the Russians in these battles were five railway employees, one officer and fifty-seven soldiers killed and seven employees, two officers and ninety-three soldiers wounded.

Before the Russian occupation of Kharbin the Chinese burned the native town. A detachment of Cossacks entered Urga, northern Mongolia, for the purpose of protecting the Russian consul, who has been threatened by the Chinese. The native Mongols are friendly to the Russians. Gen. Rennekampf, after receiving re-enforcements, defeated the Chinese and chased them from all their positions.

He is now near Blagovoshensk. The dispersed rebels have fled to Mergen to join a body of 120,000 Chinese, said to be gathered there. A dispatch from St. Petersburg says that Yang Yu, the Chinese minister, assures the Russian government that the ministers are about to leave Peking, with a strong Chinese escort. Information from other sources, however, represents the ministers as by no means eager to leave the city, as they trust neither the promises of the Chinese government nor the honesty of the proposed escort.

### AMERICANS UNDER FIRE.

**English and Russians Guard Grave Error.**

London, Aug. 14.—A dispatch from Yang Tsun, via Che Foo and Shanghai, tells of an unfortunate mistake that occurred during the Yang Tsun battle that nearly wiped out the Fourteenth United States Infantry.

During the night, while the English and Russians were shelling the Chinese trenches, the Fourteenth was brought into position, ready to storm one of the Chinese trenches.

They were observed in the deep darkness by the English and Russians, who took them for a body of Chinese, and immediately turned their guns upon the Americans.

The Americans, thinking they were being attacked by Chinese, fought back, until some one of the Americans discovered the awful mistake that was being made and they ceased firing but the English and Russians kept it up until an American rushed into their lines, in the face of a deadly fire and stopped the maiming of his men.

Ten Americans were wounded, some of them very seriously, before the mistake was discovered.

In the fighting that night ten Americans were killed and fifty-five wounded. The British had fifty wounded and the Russians ten, including a colonel.

The fighting lasted for four hours. The Chinese lines extended from the railway bridge eastward three miles. It is estimated that they numbered 20,000.

The Russians, British, and all the Americans were engaged.

### DISTASTEFUL TO THE FRENCH.

**Do Not Like the Selection of Count Von Waldersee.**

New York, Aug. 14.—A dispatch to the Tribune from London says: Despite the assertions so confidently repeated that all the powers have accepted the unconditional appointment of Count von Waldersee as commander-in-chief of the allied forces in China it is still believed here that several governments have given consent to the count's nomination with important limitations on his freedom of action.

It is pointed out in Paris and by responsible authorities in London, that

that under the law of February, 1893, no foreign officer can hold, even nominally or provisionally, command of any body of French troops. At present the count's commission from the powers would make him rather chief of a council of officers than commander-in-chief in the accepted sense of the term.

No doubt when the allied army is actually engaged in a battle with the Chinese the German field marshal will be in command and his tactical dispositions will be carried out by all ranks and nationalities, but on the larger questions of strategy and policy the attitude of the chiefs of the various foreign contingents will be largely determined by instructions from home.

It is possible, however, that before Count von Waldersee reaches the Peking a more definite understanding between the powers as to their objects and purposes in China will have been reached. It has been stated in a quarter well informed on continental politics that the first suggestion for the appointment of Count von Waldersee was made by the czar in an autograph letter to the German emperor. This may be true, but, if so, St. Petersburg was only returning to Berlin a hint quietly received from that capital. The statement of some of the German newspapers that the suggestion first came from England is, of course, absurd. On the contrary, the British government was by no means in a hurry to express approval of the proposal, which it at first approached with considerable hesitation.

### RIOTS IN THE YANGTSE VALLEY.

**Copies of Edicts Found Urging the Destruction of Foreigners.**

New York, Aug. 14.—A dispatch to the Tribune from London, says: Shanghai message to the News says that troubles have commenced in the Yangtse valley at Tating. Serious riots have taken place and the telegraph station is reported to have been destroyed by members of the Kolavus society.

The Standard's correspondent in Tientsin states that copies of imperial edicts have been discovered instigating the people to destroy the foreigners. These edicts were issued simultaneously with others, in which the Chinese government promised to protect the legations.

According to the Berlin correspondent of the London Post, Lord Salisbury's reply to the Kaiser's proposal that Count von Waldersee should be appointed commander-in-chief was couched in most friendly terms. The German foreign office is not disposed to attach undue importance to the one condition insisted upon by England, that the assent of the other powers concerned should also be obtained, since all the powers, save France, have now given their formal consent to von Waldersee's appointment.

### ALLIES ADVANCE TWELVE MILES.

**Report from Shanghai Gives Fresh News from Chinese Capital.**

Tientsin, Monday, Aug. 6, via Shanghai, Aug. 13.—The army advanced twelve miles today.

Two reliable couriers who left Peking, Aug. 1, arrived today at Tientsin. They say that the emperor dwelled the foreigners for a few days.

The former viceroy of Shantung, who is bitterly anti-foreign, arrived with new troops, according to these couriers, and planted two batteries on the wall near the legations.

The enemy began shelling and opened a fierce rifle fire which was kept up for two days.

The head of the missionary board, with a party, while trying to get provisions, was killed.

The fighting lasted for four hours. The Chinese lines extended from the railway bridge eastward three miles. It is estimated that they numbered 20,000.

The Russians, British, and all the Americans were engaged.

Colonel Daggett let a beautiful charge. General Chaffee estimates that the casualties and the prostrations from the terrible heat prevailing amounted to 40 per cent of the force employed.

The general advance of the relief column began on the morning of August 8. It is believed this means that the allies have left Yang Tsun, which they captured on August 6, and are now on the last half of the way to Peking, which is seventeen miles this side of Peking.

During the night, while the English and Russians were shelling the Chinese trenches, the Fourteenth was brought into position, ready to storm one of the Chinese trenches.

They were observed in the deep darkness by the English and Russians, who took them for a body of Chinese, and immediately turned their guns upon the Americans.

The Americans, thinking they were being attacked by Chinese, fought back, until some one of the Americans discovered the awful mistake that was being made and they ceased firing but the English and Russians kept it up until an American rushed into their lines, in the face of a deadly fire and stopped the maiming of his men.

Ten Americans were wounded, some of them very seriously, before the mistake was discovered.

In the fighting that night ten Americans were killed and fifty-five wounded. The British had fifty wounded and the Russians ten, including a colonel.

## FIGHT FOR EIGHT-HOUR DAY.

Mill Men, Backed by Building Trades, Strike in California.

San Francisco, Cal., Aug. 14.—The Millmen's union, backed by the Building Trades council, today began its earnest fight for an eight-hour day. A strike has been ordered and the strength of the movement will soon be known. The lumber and planing-mill owners have not yet decided whether the mills shall try to continue operations with nonunion men or shall close down until an adjustment is effected. In four San Francisco mills and in all of the Oakland mills the union men were paid off Saturday night after their refusal to return this morning under the old schedule and were ordered to remove their tools from the mills. "Unless some understanding is reached before the end of the week," said Andrew Wilkie, proprietor of the Mechanics' mills, "I believe building will practically cease in San Francisco and the bay cities and the 15,000 men in the building trades will be thrown out of employment." No advance in wages is asked, but the same pay is wanted for eight hours' as is now given for nine hours' work. The mill men say they cannot grant the demand and meet eastern competition.

## To Extradite Anarchists.

Madrid, Aug. 14.—The new extradition treaty between Spain and the United States allows the extradition of anarchists and other criminals and their accomplices, who under the former convention managed to be considered political prisoners. The treaty also includes officials who have embezzled public funds and makes extradition procedure much easier.

## Zionist Congress Opens.

London, Aug. 14.—The fourth Zionist congress was opened with 500 delegates present. After organizing, Prof. Max Nordau, reviewing the situation, gave an appalling account of persecution in Roumania and paid a tribute to Emperor William of Germany for his attitude toward the Jews of Pomerania and East Prussia.

## Baby's Voice

Is the joy of the household, for without it no happiness can be complete. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that the danger, pain and horror of child-birth can be entirely avoided by the use of "MOTHER'S FRIEND," a scientific liniment. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Our book of priceless value to all women will be sent free to any address by Bradfield Regulator Co., Atlanta, Ga.

## POND'S EXTRACT

Used over half a century. Refreshing and invigorating, for the toilet or after shaving. Immediate relief to eyes irritated by wind or dust. As a Remedy, it controls pain, bleeding and inflammation. Used Internally and Externally

CAUTION.—Witch Hazel is NOT Pond's Extract, and cannot be used for it. Ordinary Witch Hazel is sold in bulk, diluted, easily turns sour, and generally contains "wood alcohol," which is an irritant externally and, taken internally, is a deadly poison. "Pond's" extract is sold ONLY in SEALED bottles enclosed in buff wrapper.

Pond's Extract Co., 76, Fifth Ave., New York.

POND'S EXTRACT OINTMENT cures Itching or Bleeding Piles, however severe. It is a specific in all skin diseases.

## HE DARES NOT TO SURRENDER

Aguinaldo Lives in Fear of Uncle Sam.

### CAMPS ONE NIGHT IN A PLACE.

Thinks He Would Be in the Excepted Class by the Terms of the Amnesty Proclamation — Gen. Pio Del Pilar Would Raise Regiment for China.

Washington, D. C., Aug. 14.—Copies of Manila papers received at the War Department contain a letter purporting to be from a personal friend of Aguinaldo, which states that the Filipino chief does not take advantage of the amnesty proclamation because some time ago he gave orders to his followers to break up into guerrilla bands. The amnesty orders except those who violated the laws of war, and it is stated that Aguinaldo fears that he would be in the excepted class, should he undertake to surrender under the amnesty proclamation.

The letter is dated at Biac-No-Blato, which is said to be the present provisional headquarters of Aguinaldo. It states, however, that Aguinaldo never stays more than one night in a place, and only a few hours in any location. He allows no one to come near him, except his most intimate personal friends.

A dispatch in one of the papers, dated at San Pedro Macati, states that General Pio del Pilar, who recently surrendered, says he wishes to become a good American citizen, and intends to accept the American terms offered to his people. He said he would like nothing better than to raise a regiment of native Filipinos to serve in China.

Copies of orders received at the war department from Manila announce the sentence of Jacinto Ebron, a native, who was charged with "insurrection against the government of the United States of America." Ebron was sent to the penitentiary for five years. The order states that Ebron was a member of a band of outlaws operating in Cagayan province, Luzon, which committed various outrages upon the whole population and kept the people in a state of terror.

Furman Camit, convicted of manslaughter in Iloilo, was sentenced for ten years.

#### Knighted for Work in China.

Brussels, Aug. 14.—M. de Cartier de Marchienne, secretary of the Belgian legation at Pekin, has been created a knight of the order of Leopold. The newspapers give great praise to M. de Marchienne for his services in China. Fortunately for himself, M. de Marchienne left Pekin before the trouble began. He was about to return to Europe for a much needed vacation, but remained at Shanghai and did good work by keeping the foreign office informed of the course of events in China.

#### Refuses Writ for Neely.

New York, Aug. 14.—Judge Lacombe of the United States Circuit court refused to sign the writ of extradition for Charles F. W. Neely on account of the action of Judge Wallace in granting an appeal to the Supreme Court in the habeas corpus proceedings. He indicated that he did not think Judge Wallace understood the real situation of the case, and he believed if it went to the Supreme Court in its present shape the application for a writ of habeas corpus would be denied.

#### Another War Brewing.

London, Aug. 14.—A news agency dispatch from Lahore, Punjab, says the ameer of Afghanistan is mobilizing forces of infantry and artillery and that it is reported an advance on the Russian frontier is contemplated. It is added that the news is not fully credited at Lahore, though, it is explained, the ameer's behavior has been causing some uneasiness in official circles.

#### Plot to Kill Five Rulers.

New York, Aug. 15.—Il Progresso, the Italian paper of New York prints the alleged confessions of a Patterson Anarchist, which tells of the drawing of lots by the anarchists on May 1, to kill the various rulers. Brecci was chosen to kill King Humbert, and one was chosen to kill McKinley. Others were selected to kill Franz Joseph. The confession was a letter signed C. Luigi Alfieri. Il Progresso does not take stock in the story.

#### "Barley King" Goes to the Wall.

Chicago, Aug. 14.—Henry J. O'Neill, "the barley king," filed a petition in bankruptcy in the United States court. His liabilities are stated at nearly \$500,000, while his assets are only \$5,000. Though he has been financially embarrassed for some time, it is said, this final crash is due to the publicity given his business affairs at the time his wife was forced into bankruptcy last winter.

#### Calls Us a Debtor Nation.

London, Aug. 14.—In an editorial today the London Times discusses the economic position of the United States. It declares the United States has not yet ceased to be a debtor nation.

Dullness in speculation, large receipts of new grain and lower Liverpool cables result in a sharp decline in cereal prices, provisions sympathizing.

#### Church of 3,000 Members.

About 540 seats have recently been added to the seating capacity of Bethany church, Philadelphia. The church has a membership of 3,000, and a Sunday-school of about the same number.

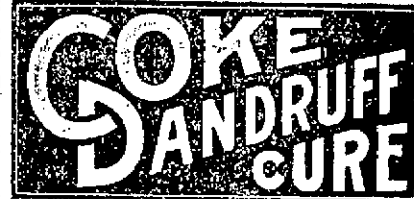

#### GEN. CHAFFEE SENDS A TELEGRAM

Advices That Allies Will Soon Be Before the Gates of Pekin.

Washington, Aug. 14.—The allies are expected to arrive at Pekin, the goal which China has so far sought in vain to protect, within the next twenty-four hours. A message from General Chaffee received at the war department bore the news that the relief force had reached Ho-Si-Wu, only thirty-three miles from Pekin, Thursday. According to this report, the army now must be about nine miles from the capital. The last heard from Chaffee before this was at Yang-Tsun, which had been captured after a hard fight, and word of his movements since then had been awaited eagerly. Thursday he was eighteen miles beyond Yang-Tsun, Lang-Fang, the place where the ill-fated Seymour expedition met its fate and turned back, had been left behind. The battle of Yang-Tsun was fought Aug. 8, and the advance to Ho-Si-Wu was accomplished Aug. 9—a march of eighteen miles in three days. This was four days ago, and at the same rate of progress Chaffee is even now at least within striking distance of the walls of Pekin. It was a consummation which the war department had awaited calmly, and, stirring as the news was that the American force was now nearing the gates of the imperial city, Secretary Root and Adjutant General Corbin evinced no surprise, as it accorded with calculations, although the advance has been more rapid than was expected.

#### Half Way to Pekin.

Washington, D. C., Aug. 14.—A dispatch has been received at the war department from Gen. Chaffee, dated Aug. 10, which says: "Arrived at Ho-Si-Wu yesterday." This place, which is spelled Ho-Si-Wu on the war department maps, is about half-way between Tientsin and Pekin.
